Options

| | | |
|----------------------|--|------|
| Accessibility | N1. 1 . Equivalent alternative content for all image files is correctly provided. | Pass |
| Accessibility | N1. 176 . Adjacent hypertext links are always separated by a printable character or an image. | Pass |
| Code | N1. 9 . The source code of the pages contains information relative to the character set which is used. | Pass |
| Code | N1. 11 . The site doesn't have any system which prevents or hinders the user from reading the source code. | Pass |
| Code | N1. 12 . The source code of all the pages contains a document type declaration (doctype) which conforms to the syntax defined by the W3C. | Pass |
| Contact | N1. 57 . The site provides at least one means of contacting the author and/or the webmaster. | Pass |
| Files for download | N1. 32 . The format (file extension or corresponding software) of downloadable files is stated. | Pass |
| Files for download | N1. 34 . The file size of downloadable files is stated. | Pass |
| Forms | N1. 36 . In the event of data entered into an online form being rejected, the fields containing the rejected data are indicated to the user. | Pass |
| Forms | N1. 38 . Obligatory fields in forms are clearly indicated. | Pass |
| Forms | N1. 193 . Information that is intended for public spaces can be previewed before being submitted. | Pass |
| Homepage | N1. 43 . The content and the services provided are described on the homepage. | Pass |
| Hyperlinks | N1. 46 . Links of the same type share the same colours, form and behaviour on all pages. | Pass |
| Hyperlinks | N1. 47 . Links are visually/graphically different from the rest of the content. | Pass |
| Hyperlinks | N1. 163 . Underlining text is only used for hyperlinks. | Pass |
| Identification | N1. 42 . The name of the site/author are stated on each page. | Pass |
| Internationalisation | N1. 185 . The country is indicated in all postal addresses. | N/A |
| Internationalisation | N1. 186 . The telephone country code is stated in front of every telephone number. | N/A |
| Navigation | N1. 61 . Apart from the event of an irreversible action of which the user must be forewarned, the navigation buttons (back and forwards) allow navigation through the history. | Pass |
| Navigation | N1. 63 . Access and navigation of pages is possible on a display that is set at 256 colours. | Pass |
| Navigation | N1. 70 . The main navigational menu is situated in the same place in all of the pages. | Pass |
| Offer | N1. 21 . Financial data are expressed in a unit which is conforming to international standards. | N/A |
| Pop-ups | N1. 155 . If the site does impose pop-up windows this only happen once. | N/A |
| Pop-ups | N1. 156 . If the site does impose pop-ups they contain a "close window" button. | N/A |
| Server | N1. 82 . The server transfers a custom 404 error page. | Pass |
| Titles | N1. 86 . Every page has a title which is meaningful and relevant to the content of the site. | Pass |
| Typography | N1. 73 . The number of fonts used throughout the site is limited to three (unless it is a presentation of graphical work or products) | Pass |
| Typography | N1. 170 . A generic font family is given as the last substitution element. | Pass |
| Accessibility | N2. 4 . The font size of display characters is expressed in relative size and not absolute size. | Pass |
| Accessibility | N2. 5 . The entire site is navigable using only keyboard input. | Pass |
| Accessibility | N2. 6 . The meaning/expansion of acronyms and abbreviations is made explicit when they first appear in the body of each page. | Pass |
| Accessibility | N2. 7 . The site doesn't make use of frames. | Pass |
| Accessibility | N2. 13 . The source code of the pages contains an indication of the main language of the content. | Pass |
| Accessibility | N2. 148 . Alternative content for all non textual content is correctly stated. | Pass |
| Accessibility | N2. 160 . Summaries for tables are correctly provided. | Fail |
| Accessibility | N2. 162 . Every form field has a unique label. | Pass |
| Code | N2. 16 . The content of each page is organized in a structured hierarchy of titles and sub-titles. | Pass |
| Code | N2. 149 . The W3C that are used on the homepage conform to standards. | Pass |
| Contact | N2. 55 . The site provides at least one way of contacting a public space moderator. | N/A |
| Contact | N2. 58 . The site proposes at least two ways of contacting the author and/or the webmaster. | Fail |
| Content | N2. 18 . Information relative to copyright and reuse is accessible from all of the pages. | Pass |
| Content | N2. 20 . The moderation conditions of public spaces are published on the site. | N/A |
| Content | N2. 22 . If the site is directed at or reserved for a specific audience, this audience must be mentioned clearly on the homepage. | N/A |
| Content | N2. 83 . Advertisements and publicity are identified as such. | N/A |
| Cookies | N2. 25 . Access and use limitations linked to cookies being blocked are indicated. | N/A |

| | | |
|----------------------------|---|------|
| Cookies | N2. 28 . The presence and the aim of the cookies is stated on the site. | N/A |
| Favorites icon | N2. 29 . The source code of the page contains a valid link to a page icon (favicon). | Pass |
| Files for download | N2. 33 . The downloadable files are provided in at least one format whose specifications are in the public domain. | Pass |
| Forms | N2. 195 . In the case of a form that is constituted of more than one page a recapitulating file is displayed before final submission. | N/A |
| Forms | N2. 202 . In the case of data being rejected in a form, the reasons are stated to the user. | Pass |
| Forms | N2. 203 . Les informations destinées à des espaces publics peuvent être prévisualisées sous la forme où elles seront affichées. | Pass |
| Homepage | N2. 44 . The volume of information to completely display the page in its entirety is inferior to 100 K. | Pass |
| Hyperlinks | N2. 48 . All the links within the site are valid. | Pass |
| Hyperlinks | N2. 52 . Links that have been followed are distinguished from ones that have not. | Pass |
| Hyperlinks | N2. 167 . The wording of hypertext links is representative of the nature and content of the target page. | Pass |
| Hyperlinks | N2. 190 . Hovering over links does not modify page layout. | Pass |
| Identification | N2. 53 . The name of the person responsible for content is stated on the site. | Pass |
| Identification | N2. 93 . The name of the author, the entity or company is stated. | Pass |
| Internationalisation | N2. 15 . If the site is available in more than one language it is possible to access any version from all the pages of the site. | N/A |
| Multimedia | N2. 79 . No rich media object larger than 50 K (images or other) is sent to an agent without prior warning, previsualization or progressive display. | N/A |
| Multimedia | N2. 161 . If animations, sounds or flashing items are looped in the page, a user can stop them. | N/A |
| Navigation | N2. 62 . Links within the site do not point to pages that are under construction. | Pass |
| Navigation | N2. 64 . Users can resume navigation directly after having submitted a form, without having to use the browser back button. | Pass |
| Navigation | N2. 65 . Navigational icons are accompanied by an explicit text equivalent. | N/A |
| Navigation | N2. 66 . It is possible to return to the homepage of the site from all the pages on the site. | Pass |
| Navigation | N2. 67 . The order in which navigation sections are laid out is the same on all the pages of the site. | Pass |
| Navigation | N2. 68 . If all of the site's pages are not accessible from the main navigation menu a site map is accessible from all of the pages. | Pass |
| Navigation | N2. 72 . Users are informed on each page of its position in the structure of the site. | Pass |
| Navigation | N2. 78 . Unless there is a warning, the volume of data to download in order to display a page in full is inferior to 150 K. | Pass |
| Navigation | N2. 81 . The website graphical charter is coherent over all of the pages and sections of the site. | Pass |
| Offer | N2. 24 . The quantifiable characteristics of products and services (dimensions, time periods, volumes etc.) are expressed in units that conform to international standards. | N/A |
| Plugins | N2. 76 . If access to an item of content requires a plug-in, the size of the file to download is clearly stated. | N/A |
| Plugins | N2. 77 . If access to an item of content requires a plug-in, a link to download the file or to information about the plug-in is provided. | N/A |
| Pop-ups | N2. 153 . Navigating pages within the site doesn't open pop-up pages. | Pass |
| Search engine | N2. 60 . If the site is made up of more than 15 textual pages, an online search engine is accessible from all of its pages. | Fail |
| Security | N2. 133 . The privacy and private information confidentiality policy is made clear on the site. | Fail |
| Security | N2. 135 . The server does not send back a list of files in a directory if there is no default page. | Pass |
| Server | N2. 187 . The server returns an indication of the main content language. | Pass |
| Statistics and referencing | N2. 85 . Information about site audience and statistics contain the period and method of measurement. | N/A |
| Titles | N2. 87 . Every page has a title which is meaningful and relevant to its content. | Pass |
| URL | N2. 88 . URLs of pages within the site do not contain any spaces. | Pass |
| URL | N2. 89 . The domain name extension (.com, .org, .net, etc.) is coherent with the activity, the geographical zone or the status of the author. | Pass |
| URL | N2. 90 . The length of the domain name is inferior to 30 characters. | Pass |
| URL | N2. 92 . The address of the site works with or without the prefix www. | Pass |
| Accessibility | N3. 2 . The pages are at least in conformance to Level "A" of the Web Content Accessibility Guidelines (WCAG) 1.0 of the W3C. | Pass |
| Code | N3. 10 . The W3C technologies which are being implemented are conforming to specifications. | Pass |
| Cookies | N3. 26 . The cookie validity period is stated on the site. | N/A |
| Cookies | N3. 27 . The cookies have an explicit name which makes it possible to identify the site that they are from. | N/A |
| Favorites icon | N3. 30 . The favourite/page icon is at least provided in a 32 x 32 pixel format. | Pass |
| Forms | N3. 37 . In the event of form input being rejected all the information already input can be modified by the user. | Pass |

| | | |
|----------------------------|--|------|
| Forms | N3. 194 . The preview page for information intended for a public site makes it possible to edit the information. | Pass |
| Hyperlinks | N3. 45 . The URL that link to directories and not to files end with a slash ("/"). | Pass |
| Hyperlinks | N3. 50 . Links to files inside the site and those outside the site are distinguishable. | Pass |
| Hyperlinks | N3. 51 . The main language used on the target pages is stated when it is different from the current page. | Pass |
| Multimedia | N3. 183 . Thumbnails are not just large images that are resized in the user agent. | Pass |
| Navigation | N3. 151 . The main navigation menu of the site appears on the custom 404 error page. | Pass |
| Plugins | N3. 168 . If viewing some parts of content requires a plug-in, the download hyperlink is provided on all pages where it is necessary. | N/A |
| Pop-ups | N3. 154 . Loading the site homepage doesn't open pop-up pages. | Pass |
| Server | N3. 8 . The headers being returned by the server contain information relative to the character set which is being used. | Pass |
| Server | N3. 17 . If the site exists in more than one language, the server will return a page in the language defined by the user agent, if the resource is available in that language. | N/A |
| Server | N3. 184 . The server sends information allowing content to be cached. | Fail |
| Server | N3. 189 . The server returns information relative to the nature of the content (presence or absence of content of a sexual nature, violence, etc.) | Fail |
| Server | N3. 197 . The server returns information concerning the confidentiality and privacy policy. | Fail |
